

Safety Consultant Application

Please review the application before you begin filling it out; there are several questions that require long form answers that you may want to draft in another application before cutting and pasting. Applications are reviewed by the board every other month. You will be contacted after review regardless of the board's decision on your application.

Current Job Title

Areas of experience

Each consultant must be qualified in at least one area; self-assessment is an important quality here, so don't claim expertise you don't have.

Rigging and equipment

Policies and practices

Curriculum

For each area of expertise checked above, please tell us why you believe you are an expert in that area.

You may include references, resume details and any other information you believe to be important to consider.

Review and discuss specific guidelines.

Download the Teacher Training Program Guidelines [HERE](#).

Pick two guidelines from each of your areas of expertise and discuss them below based on the prompts.

EX: If you checked Curriculum, pick any two guidelines you feel relate to that area. What are the ultimate purposes of these two guidelines? What deviations would be acceptable, if any? What questions would you ask an applicant studio to clarify their understanding of the guideline? If you checked multiple areas of expertise, be sure to select two guidelines for each one. *Please remember to reference the guidelines you pick by number: ex, 1.1.3.*

Relationship with ACE

What roles are you interested in playing within the Safety Program?

Lead Consultant: Lead Consultants spearhead applications from beginning to end. This requires scheduling and time management skills as well as safety expertise. Lead consultants are paid for their time.

Associate Consultant: Associates are included on the list serve and lend their expertise to questions and assessments that a Lead consultant may tap them for. Associates are paid for their time in appropriate situations.

Please tell us why you would like to be an ACE Safety Consultant

Please tell us about your history with ACE/AYCO

How did you hear about the program? Have you attended ACE events? What do you know about the organization and how have you been involved with us in the past?

Communication Skills

A Safety Consultant needs to have an array of technical and communications skills. The application process uses several online tools.
